|---|-------------------------------------|
| <input type="checkbox"/> in SHOJI-style | <input type="checkbox"/> right side |
| <input type="checkbox"/> Chipboard white | <input type="checkbox"/> left side |
| <input type="checkbox"/> Real wood veneer | <input type="checkbox"/> both sides |
| <input type="checkbox"/> don't know | |

8.0. Building and room dimensions

Please identify the clear dimensions of the space at the points where the SHOJI sliding doors are to be installed.

Please measure millimeter exact at least at 2, better at 3 spaces of the room and enter the dimensions here:

Height of the room (from lower edge of ceiling to upper seem of floor)

Left: _____mm Center: _____mm Right: _____mm

Width of room (from wall to wall)

Down below: _____mm Middle: _____mm Top: _____mm

8.1. In case there are baseboards please measure those

Height: _____mm Width: _____mm

8.2. If the SHOJI doors are to be installed on existing cabinet or shelf parts, we need the exact outside dimensions of these elements:

Which parts are there?

cabinet body

open shelves

Height: _____mm

Width: _____mm

Depth: _____mm

9. Other Information:

extend heating pipes on the walls ?

Yes

No

Existing Subfloor heating ?

Yes

No

How and by whom the Assembly is to take place?

The shoji sliding doors are finished and come covered in a sturdy wooden box.

The rail guide must be cut to length and secured in accordance with the position to the ceiling and floor.

The assembly of simpler systems is usually possible by the talented amateur with appropriate prior knowledge in woodworking and good tools. For larger installations, we can recommend the installation by a carpenter working in your neighborhood. On surcharge the assembly can be done by us.

Assembly by you or your local carpenter
